T. R. Stewart, master mechanic at the Baltimore & Ohio shops here, has been promoted to be master mechanic at the Cumberland division shops. He will be succeeded here by C. A. Cagle, formerly assistant master mechanic.

There a platform had been erected and the entire mechanical and office forces were assembled. Mr. Stewart was presented with a solid-gold watch and chain by the employees as a mark of appreciation and friendship. Mr. Conner, chief clerk, made the presentation and the master mechanic gave a short speech of thanks.

Superintendent M. H. Broughton introduced Mr. Cagle, the new master mechanic, who spoke a few words. The superintendent said all new and retiring master mechanics must buy extra Liberty Bonds and he saw to it that the new officials did so. Mr. Stewart became master mechanic here in November and since then has made many friends and also set a high record for roundhouse work on this division.

Captain W. H. Stayton Appreciates Work Done for Navy League.

In a letter received by Scout Commissioner A. O. Stone from Captain W. H. Stayton, who spoke on behalf of the Navy League here recently, he thanks the scouts of the city who have aided the Navy League on several occasions. The letter follows: "I have been advised by R. A. Neville and other Navy League members of Connellsville branch, of the service rendered by the Connellsville Boy Scouts, and I take this means of thanking you personally for the services which you, as Boy Scouts, have rendered to the Navy League of the United States, and in this service you are working for your government. I regret that I cannot shake hands with each and every one of you and thank you personally, but as I am unable to do this, I hope that you will accept the means which I must use, and in the future continue to use your best efforts to advance the cause for which our boys are fighting, and for which 'Old Glory' stands—Liberty."

Don't Poison Baby.

Forty years ago almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which induces pain and produces sleep, but which is poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without your or your physician's knowledge of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, it is the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

300,000 SELECTIVES TO BE CALLED TO THE COLORS THIS MONTH

Order May Be Issued This Week; Believed That 1,000,000 Soldiers Will Be in France by July 1.

WASHINGTON, May 2.—Preparations are in progress in the office of Provost Marshal Crowder for the issuance of a call, probably before the end of this week, for 300,000 selective men to be sent to the National Army cantonments now being completed by the transportation of troops abroad. The whole number of draftees will not be called at one time but will be divided into contingents with intervals of several days between the calls. The gain that has been possible to make in providing overseas transportation makes it possible to advance the date of the calling of men to the colors. The exact number of American troops now in France is a military secret, but Secretary Baker has authorized the statement that they number in excess of half a million. At the present rate of movement it is expected that 1,000,000 American soldiers will be on French soil by July 1, and possibly 2,000,000 by the end of the year.

THE PARAMOUNT.

"THE CROSS BEARER"—A World feature, in which Montague Love, the famous star, is seen in the leading role, is being shown today. "The Cross Bearer" tells the remarkable story of Cardinal Mercier, the world-famous Belgian prelate, who has stood up so stoutly for the rights of his countrymen against the aggression of the German oppressors. The story is an extremely thrilling one. It tells of the love story of the cardinal's ward and of the way that the cardinal protects her. It is a story replete with exciting incidents. It gives opportunity for the biggest spectacular effects and needless to say, each and everyone of these opportunities has been seized and made the best of. The role in which Montague Love is seen is a powerful one and is superbly acted by the star. Some of the military scenes were taken in Belgium and are a part of the formal invasion, while the interiors of the cardinal's residence are accurate copies in detail, made from enlarged photographs. Real tapestries and antique furnishings of very great value were collected for this picture, which is staged on a lavish scale. Other members of the cast are: James Egan, Kate Lester, Albert Hart, Alex Francis and Anthony Meric. The Weekly Review and pictures of the Liberty Loan parade are also being shown. Tomorrow and Saturday Mabel Norman will be featured in "Dodging a Million," a Goldwyn attraction.

ARCADE THEATRE.

The H. D. Zarrow show at the Arcade this week are sure holding the boards down to perfection. Raymond Lewis was a scream in all the things he did, while Miss Pauline Glemarr showed that she was an artist in the line of acrobatic dancing. Charles Markert, late of Al G. Fields' Minstrels, handled his part in a clever way, and when it comes to wearing clothes he is up to the minute. Fred and Eva Hurley have lost none of their charms since their last appearance here, and the songs rendered by Mr. Hurley were new to Connelleville. Miss Elsie Zieher has a charming way of singing, and was called to take a number of encores. The special scenery and lighting effects add greatly to the show and the beautiful wardrobe. The company presents a brand new bill and the music is just off the press. This is the third time this company has been in Connelleville, and each time they have had better bills. The management will have a hard time to better the show than the way it is at the present time. This bill will be repeated again tomorrow and another new bill Friday and Saturday. "Vengeance and the Woman" will be the picture on the screen.

THE SOISSON.

Too much cannot be said in praise of George Penner's company of entertainers. Their wardrobe is classy, their songs are all new and up to date, the comedians uproariously funny. This company is succeeding in making themselves favorites with the Connelleville people. Do not miss them. Coming to the Soisson, May 9, 10 and 11, the patrons of the Soisson will have the pleasure of seeing the grand screen production, "Maciste, the Warrior; the Superman," the hero of Gabriel D'Annunzio's "Cuberta." The story of the warrior starring the giant Maciste simply duplicates the actual experiences through which the heroic Italian soldier-savior passed through at the outbreak of hostilities. With several companions Maciste overpowered the guards, led his companions to safety, and after many thrilling adventures joined one of the brave bands of Apini fighting in the mountain fastnesses to keep the world safe for democracy. Do not fail to see the wonderful Maciste.

ORPHEUM THEATRE.

"A BIT OF JADE"—A Mutual five-reel drama, stars the charming little actress, Mary Miles Minter. It is a love story connected with a necklace and an old Hindu legend. Benjamin Chapin will be seen in the fourth series of "The Son of Democracy." Friday and Saturday, the latest Thomas H. Ince production, starring William S. Hart in "Blue Blazes Rawden," a tale of the Canadian northwest. The story is laid in the Canadian northwest, and deals with the brawny lumberjacks and trappers, who were quick to resent with physical force any real or fancied infringement of their rights.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determined effort to treat liver and blood conditions with a calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take the edge off the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do other purgatives. It is better not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that yawning come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "fogy" and "heavy." Note how they "clear" clouded vision and how they "perk up" the spirits. 125 and 250 a box. All druggists.

Quality in Floor Coverings

Now, if ever, quality plays a most important part in Rugs, Carpets and Floor Coverings.

Due to the scarcity of wool, some manufacturers are very cleverly mixing wool with jute and the result is very pleasing to the eye. But a jute-mixed Rug will not wear and will lose its color.

We offer only exclusive quality lines—including the famous Whittall Rugs—the best made.

Insist on Getting All-Wool Rugs!

Then too, when buying Linoleums insist on getting the genuine—the good old-fashioned cork back kind—the kind that will give years of satisfactory wear.

It is true that Pathe Records, played with the Pathe Sapphire Ball, never wear out.

The Sapphire Ball is permanent—it never requires changing. It is also round and smooth, polished to perfectly fit the record groove, so that all ugly "surface noise" is eliminated.

CIVIC PRIDE SHOULD BE A STIMULANT TO MUTUAL INTEREST OF ALL IN CITY

A civic pride must permeate every citizen of Connelville and find expression in mutual cooperation if the city is to reach the high standard we all desire. The Courier's "Buy in Connelville Movement," if put into practice, will create a mutual good will between business men and buyers, and bring into more perfect union and effort and action of all in upholding the city.

As a result of enlarged civic pride and mutual good will, a medium of exchange of products will be brought about. One of the various handicaps of the city is the need of this medium. Hence, many dealers are ordering from a foreign market, what to do and how to do it. The "Buy in Connelville Movement" will facilitate a readjustment of such conditions.

Then, too, it will increase the silver corpuscles which nourish and vitalize the depressed commercial system. A dollar spent at home will soon find its way back to the spender, while those sent away are a golden opportunity "gone, never to return."

OH! THAT AWFUL BACKACHE IT'S YOUR KIDNEYS

An unhealthy body, and the unhealthy business and industry which follow, may be prevented by ordinary judgment and care. Keep your stomach and kidneys in shape and you will have good health. The kidneys' work is to throw off the poisonous matters which enter the body. If they perform this work regularly and automatically the other organs will take care of themselves. Diseased conditions of the bladder or kidneys are indicated by nervousness, sleeplessness, that tired, worn-out feeling, dizziness, nausea, backache, lumbar rheumatism, pain in the lower abdomen, many so-called female troubles, severe pain and discomfort when urinating, bloody, cloudy and stringy urine, too frequent or suppressed passages. All these are nature's signals to warn you of diseased kidneys or bladder, which may lead to fatal Bright's disease.

Don't wait until the danger is upon you. Go to your druggist at once. Get a trial box of GOLD MEDAL HAMMILL'S OX-BOWS. They are made of the pure, original, imported Hammill's Oil, the kind your great-grandfather used. About two capsules each day will keep you healthy, that tired, worn-out feeling, dizziness, nausea, backache, lumbar rheumatism, pain in the lower abdomen, many so-called female troubles, severe pain and discomfort when urinating, bloody, cloudy and stringy urine, too frequent or suppressed passages. All these are nature's signals to warn you of diseased kidneys or bladder, which may lead to fatal Bright's disease.

Remember to ask for the improved GOLD MEDAL brand. In sealed packages, 25c, 50c and \$1.00.—Adv.

Do Your Tires Save or Waste?

IN these days of urgent conservation the wasteful tire is as out of place as meat on Tuesdays and wheat on Wednesdays.

Equip with tires that save, in tire mileage, tire life, car life, fuel and real money.

Firestone FABRIC TIRES

CORD Tire research has brought forth notable improvements in Firestone Fabric Tire construction, particularly—

- ① The increased thickness of the pure gum cushion between tread and fabric adds resilience, defends the body of the tire from shocks and bruises, gives greater riding comfort and longer car life.
- ② More rubber between fabric layers gives greater elasticity and protection against friction.
- ③ A perfect and firm seating of the tire to the rim is the result of the reinforcement in bead and side wall.
- ④ The tough, wear-resisting tread of greater thickness adds more miles of travel. Firestone Tubes, Tube Patches and other accessories in your equipment save tires, time, troubles. No wasteful delays. Keep on going.

The Confessions of a German Deserter

Written by a Prussian Officer
Who Participated in the Ravaging and Pillaging of Belgium

Copyright by Detroit Free Press

In the evening we went into camp in an open field, pitching tents, and the next day continued our march.

The country through which we passed was uninteresting and offered nothing in the way of variety. The few tiny villages through which we passed had all been abandoned, and the poor-looking houses mostly destroyed. Long trains of fugitives passed us continually. These people were as a rule those who had escaped when the French army retreated and were returning now to find their homes destroyed by the rough hand of war.

After a long march, interrupted only by halts and short rests, we approached the large Belgio-Prussian town of Seneffe, located on the Belgian side of the border. It was about noon and as the thunder of cannon constantly grew stronger, which indicated that a new battle was developing, we hoped to be able to remain in the town overnight. About one o'clock we entered and were welcomed in a big barn. Most of the soldiers refused to enter from the field kitchens, and regiments of eggs, chickens, geese and young pigs. Soon everybody was eating. I am sorry to say that most of these who were welcomed and refused to pay for what they had taken.

Several soldiers now arrived with barrels of wine and also many bottles, which were instantly opened and emptied. The obvious result, and soon many noncommissioned officers and men were helplessly drunk. The owner of our barn had possessed three large hogs. One of the drunken noncommissioned officers tried to kill one of these hogs with a fat pocket knife. He had tortured the poor beast almost to death when the animal was suddenly killed by a bullet. A few minutes afterward the officer went to sleep. This was only an example and not the worst, for the inhabitants of the town had to endure much from our men who had become drunk. There were open and secret robberies of gardens, stables and houses here and no restrictions whatever were put on the soldiers. There was no improvement in their general conduct, despite many complaints. One family reported that the French had treated them very well, but that our highly trained soldiers plundered and stole. It was therefore not surprising that the population suffered want and hunger. I often shared my bread with these suffering people. With two comrades, one day, I gave my portion of meat, vegetables and preserves and also a bag of onions to a woman with eight children. Because the son was missing in our blood, we three were sentenced to extra watch duty for a week for the offense of displaying a love of humanity.

Our leader, Lieutenant de Rosette, declared that such a thing as pity was insanity. He said if the woman had eight children that was her business. Then he concluded by saying with a great emphasis: "In war everybody looks out for themselves, even if everything around him perishes." Another soldier was sentenced to serve 14 days at hard labor. He was bringing bread to a hungry family and had six small loaves in his arms, which he had gathered from among the soldiers. The same lieutenant did not mind, accompanied by several noncommissioned officers. To the question as to where he was going, he replied that he was on his way to assist a poor family which had actually suffered hunger. The lieutenant at once ordered him to return the bread to his company. Then he turned and spoke to the soldier, calling him fool, idiot, hot-headed, etc. But the soldier nevertheless did not obey and when the lieutenant threatened a court-martial to halt the soldier moved around and threw the bread before the lieutenant's feet. Then he said solemnly: "I do not wish anything any more, but if you and your atrocious family, and the whole German nation had to endure that the poor peasants are obliged to suffer, it would be a bitter but just lesson."

This man was sentenced to serve 14 days for talking back to his superior officer. It surprised us all that he was let off so easily.

But bitterness in the ranks grew, and at last the many hard punishments that were pronounced created so much feeling that the soldiers refused to obey of their comrades.

We left Seneffe the next morning and

one hour later crossed the Franco-Belgian border. Here again we were ordered to give three cheers as we did when our troops first crossed Germany into Belgium. At noon we arrived at Vivier-Au-Court. We remained in the village until evening and were permitted to go about without restrictions. In the afternoon nine men of my company were arrested for assaulting a woman but were soon released.

At this time there was a great scarcity of tobacco among our soldiers and I knew that a mark or more was paid for a cigarette whenever one was offered for sale. Here, in Vivier-Au-Court there was but one government tobacco stall. I have seen how men were forced by noncommissioned officers at the point of guns to give up their entire supply of tobacco for worthless requisition papers. These "gentlemen" later sold their tobacco at half a mark for small packets.

Toward evening we marched off and brought the howitzers to a new position, from where the enemy's defenses on the Meuse could be bombarded. After a short march we encountered and fought a French army northeast of Donchery. Only the enemy's rear guard was on our side of the Meuse. To it was given the duty of covering the crossing of the main body of the French armies over the Meuse, which was done near Donchery.

The few bridges left standing were not sufficient for the enemy to cross as speedily as he should have. As a result there developed in Donchery a terrible fight. The French made an enormous effort. There was a terrible slaughter as men fought against men. It was one of the most fearful battles I have ever witnessed. No one knew afterwards how many he had killed. Sometimes stronger men, then weaker ones attacked. The glare from burning houses turned into red the whites of the fighters' eyes and revealed men battling one another frantically at the mouth.

Without any headgear, unkempt hair, uniforms open or mostly torn, it was by shouting, hitting, scratching and plunging like wild beasts for life or death. Everybody fought for his life. There was no quarter. Only moaning and gasping could be heard.

Each man thought only of his own life, of death or his home. Old memories raced through the mind, pursuing one another feverishly and yet men grew wilder, for they now battled a new enemy—exhaustion.

But there could not yet be any let-up. Again and again there is nothing to do but strike, stab, bite, fighting without guns or other weapons except those provided by nature for life or death.

The exertion becomes more superhuman. You bite and you are a victor. But victory only for a second, for the next antagonist is already upon you. He has just killed one of your comrades. You suddenly remember that you still have a dagger. After a hasty search you find it in its regular place. One, two, three and it sinks to the hilt in the breast of your enemy. "On, on, where there are new enemies. You suddenly see your next antagonist before you. He is after your life. He bites, stabs, scratches, to get you down, to pierce your heart with his dagger and again you are yours. Thank God, he lies on the ground; rest a second. But stop; you must have that dagger back. You pull it from the breast of your late enemy. A stream of warm blood shoots from the open wound in your face. Human blood, warm human blood. You shudder, terrified only for a few seconds, for there is another adversary. It is again necessary for you to defend yourself. Again and again the murder commences anew. Always, and always again, through the whole night.

At last, toward four o'clock in the morning, the French retired across the Meuse with the Germans storming after them. When the bridge was full of German soldiers, it was blown up by the French and hundreds of Germans found their death in the Meuse.

CHAPTER IV.
The scene of the slaughter could now be surveyed at leisure. Dead and wounded were strewn all around, and over them clouds of smoke and flames made the air thick. But we were already too hardened to feel much pity. Humanity was thrown to the winds

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back Its Color and Lustre With Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application on or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

and the cries and begging of the wounded left everybody cold.

Some Catholic sisters lay dead in front of their convent. The only building that was spared in Donchery was the armory of the Twenty-third French dragoons.

There was not much time in which to do anything, for at seven o'clock the French began to hurl shells into the village. We fortified ourselves behind a thick garden wall directly in front of the Meuse. The river bank at this point was flat, but on the opposite side it was steep. Here the French infantry had dug itself in and established three lines, one above the other. The artillery firing was too far. We did not come within its range, so that we were able to observe the effect of the shelling of our own artillery on the enemy infantry positions before us. The 21-centimeter shells rained by above our heads and burst with a fearful noise in the enemy's trenches.

The French could not resist this hail of shot very long. They soon abandoned all the heights on the river bank. They abandoned Soudan without a fight and it was left intact, which had not been the case with Donchery. Hardly a house had suffered.

When the bugles sounded in Donchery, it was discovered that our company had lost 38 men in battle. A position was taken behind the dragoon armory and our company, which now was reduced to 90 men, was ordered to attempt the building of a pontoon bridge over the Meuse. After we had been reinforced by 80 men, we marched in small detachments in order not to draw the enemy's attention to us. After an hour's march we stopped in a small forest about 200 meters from the Meuse to rest until darkness set in. At twilight a division bridge train was driven up close to our hiding place. This was soon followed by a corps bridge train as a reserve. After all preparations were made and the main advance work, such as setting up the bridge stays and landing platforms, were ready, the single pontoon wagons drove up. They were speedily but silently unloaded. We completed four pontoons, that is, 20 meters of bridge, without the enemy discovering anything.

Then suddenly the searchlight of the enemy was set in action and scanned the river. We jumped to the ground at once. The enemy must have seen us, for the searchlights played here and there and kept our bridge position under continuous glare. We were discovered hardly before we knew what had happened, and a rain of fire fell in the water in front of us. We continued to lie flat on the ground as four more shots struck the water, this time a little nearer to the bridge and one shot hit the bank. At once a third rain of shot followed and two struck the bridge. Two men fell in the water and two lay dead on the bridge. Those in the water swam ashore and escaped none the worse for their experience except for a bath.

THIS drawing is made from an actual photograph of Betty Lane Shepherd singing in direct comparison with the New Edison and thus demonstrating that her voice and the instrument's Re-Creation are indistinguishable.

NOT AN IMITATION— BUT A RE-CREATION

That is what the New Edison renders—a Re-Creation, so complete and satisfying that it is utterly impossible to distinguish the artist's voice from the instrument's. Talking machines imitate but the New Edison Re-Creates.

The famous Edison tone tests have demonstrated the power of this marvelous instrument beyond question. More than 1500 of these tests have been held; more than 30 Grand Opera stars have sung in them—sung in direct comparison with the instrument and proved that no difference could be detected. They have convinced 2,000,000 people that the strongest claims do not exaggerate the merit of
